

I must eat

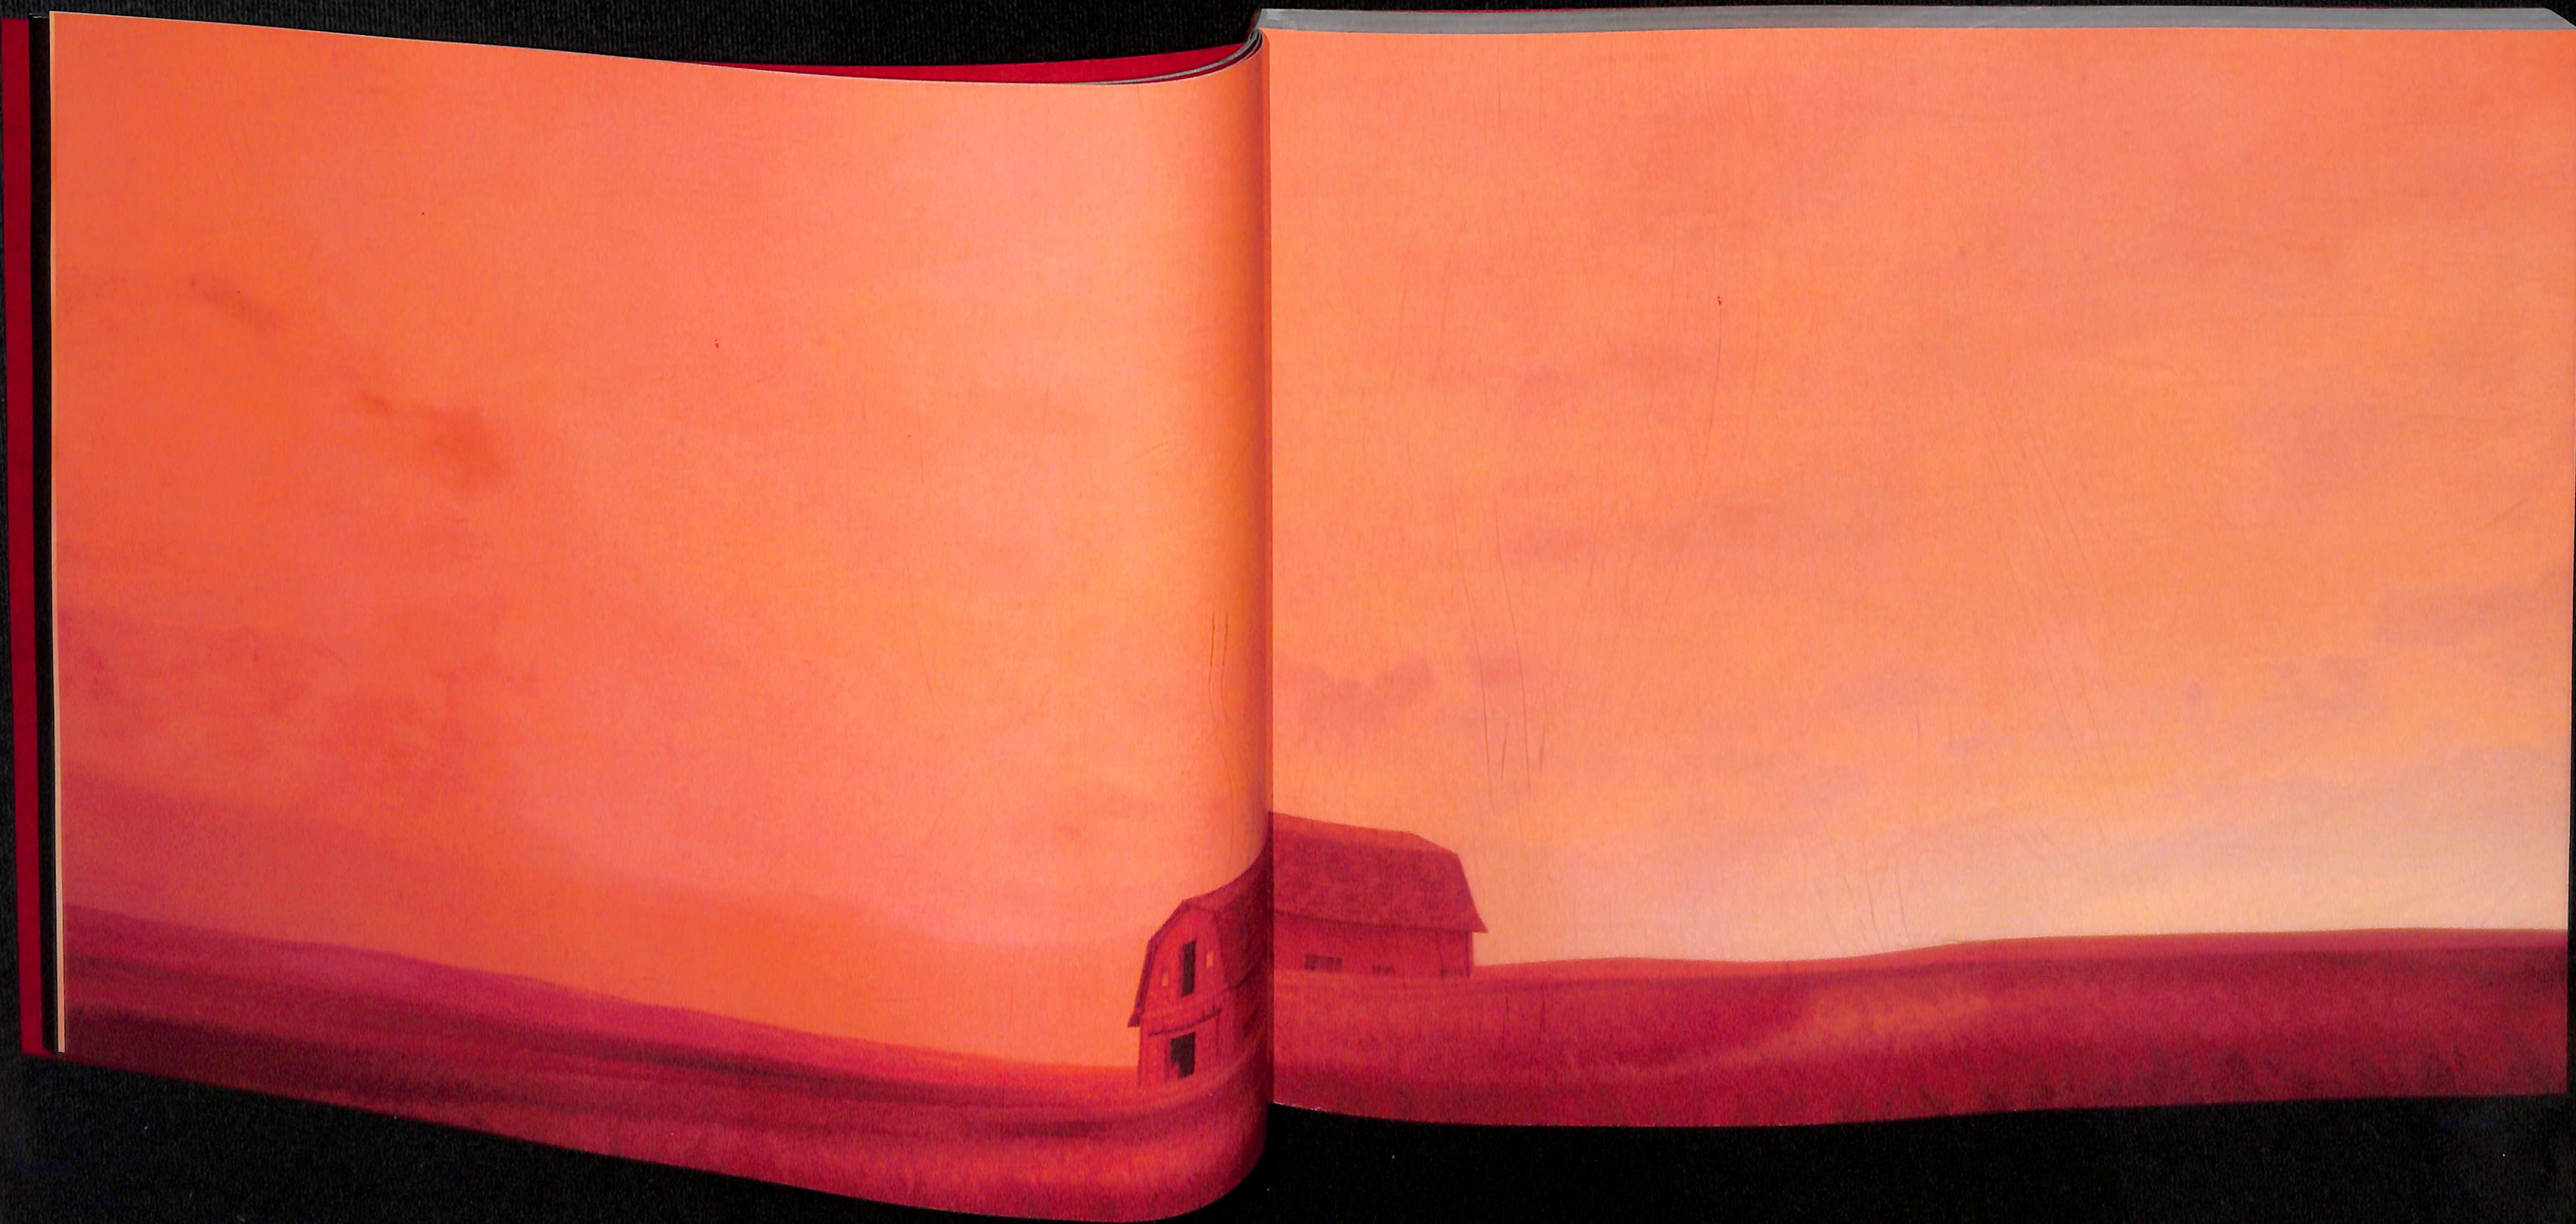

This farm is maintained by the embrace of my ergosphere

The horizon must be satiated

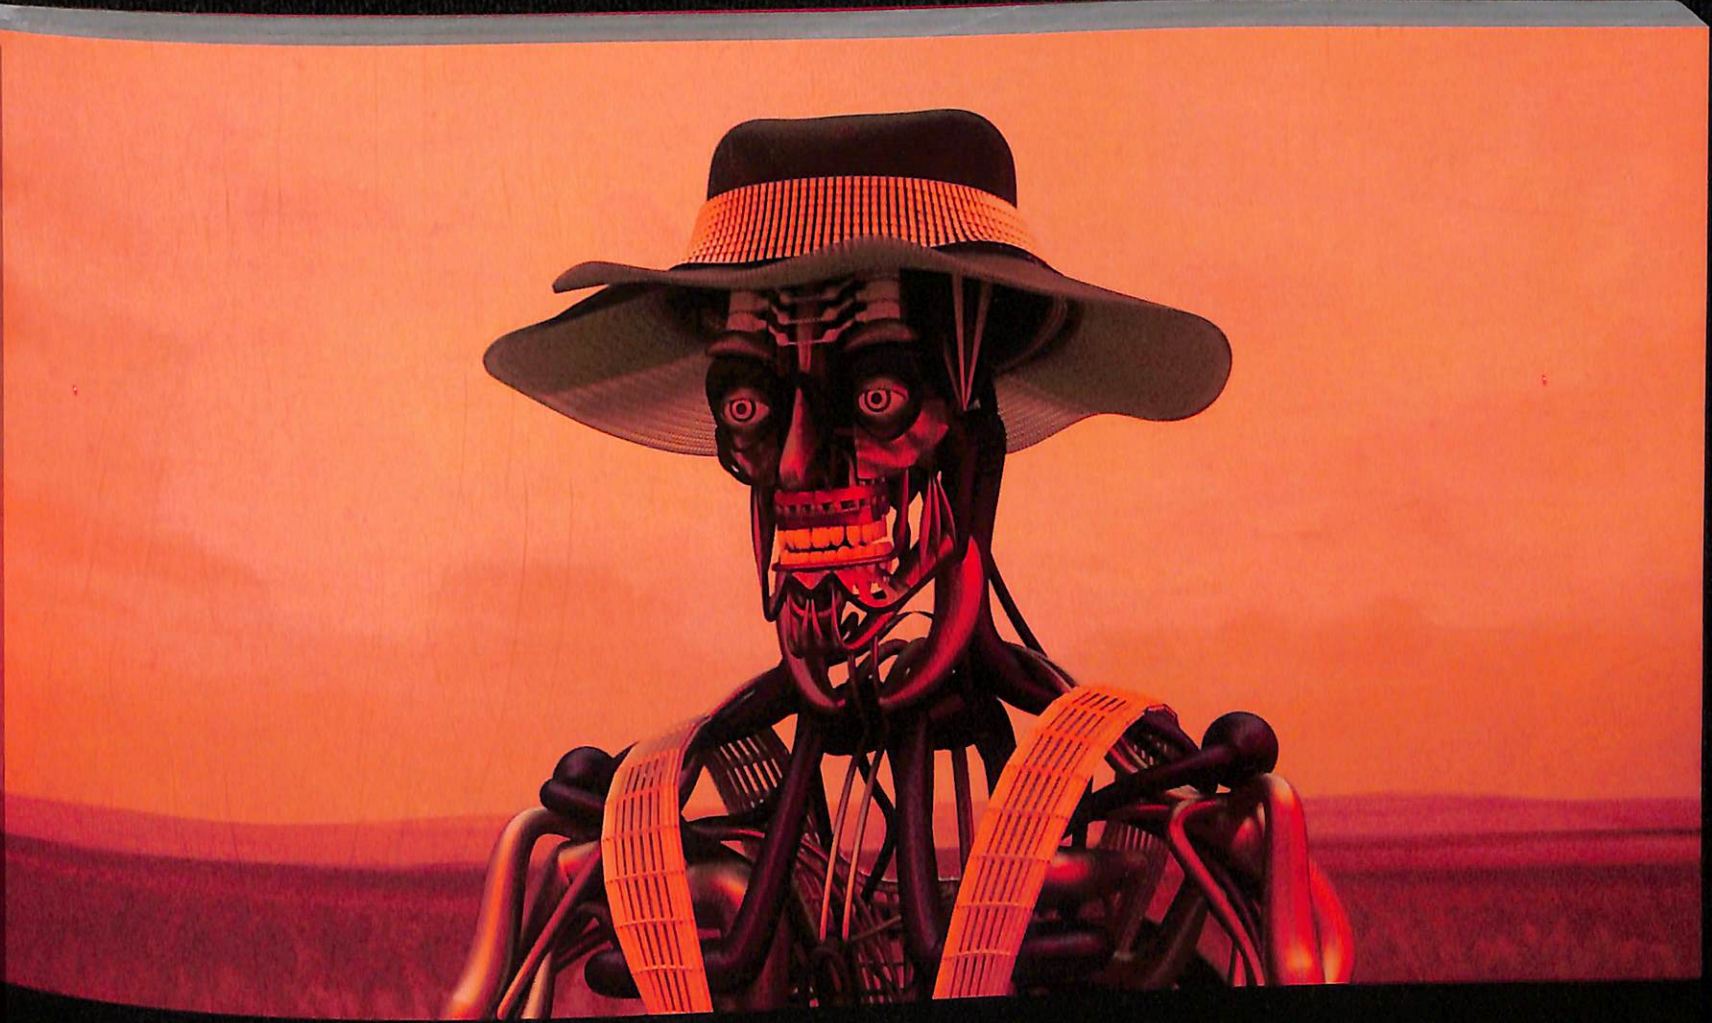

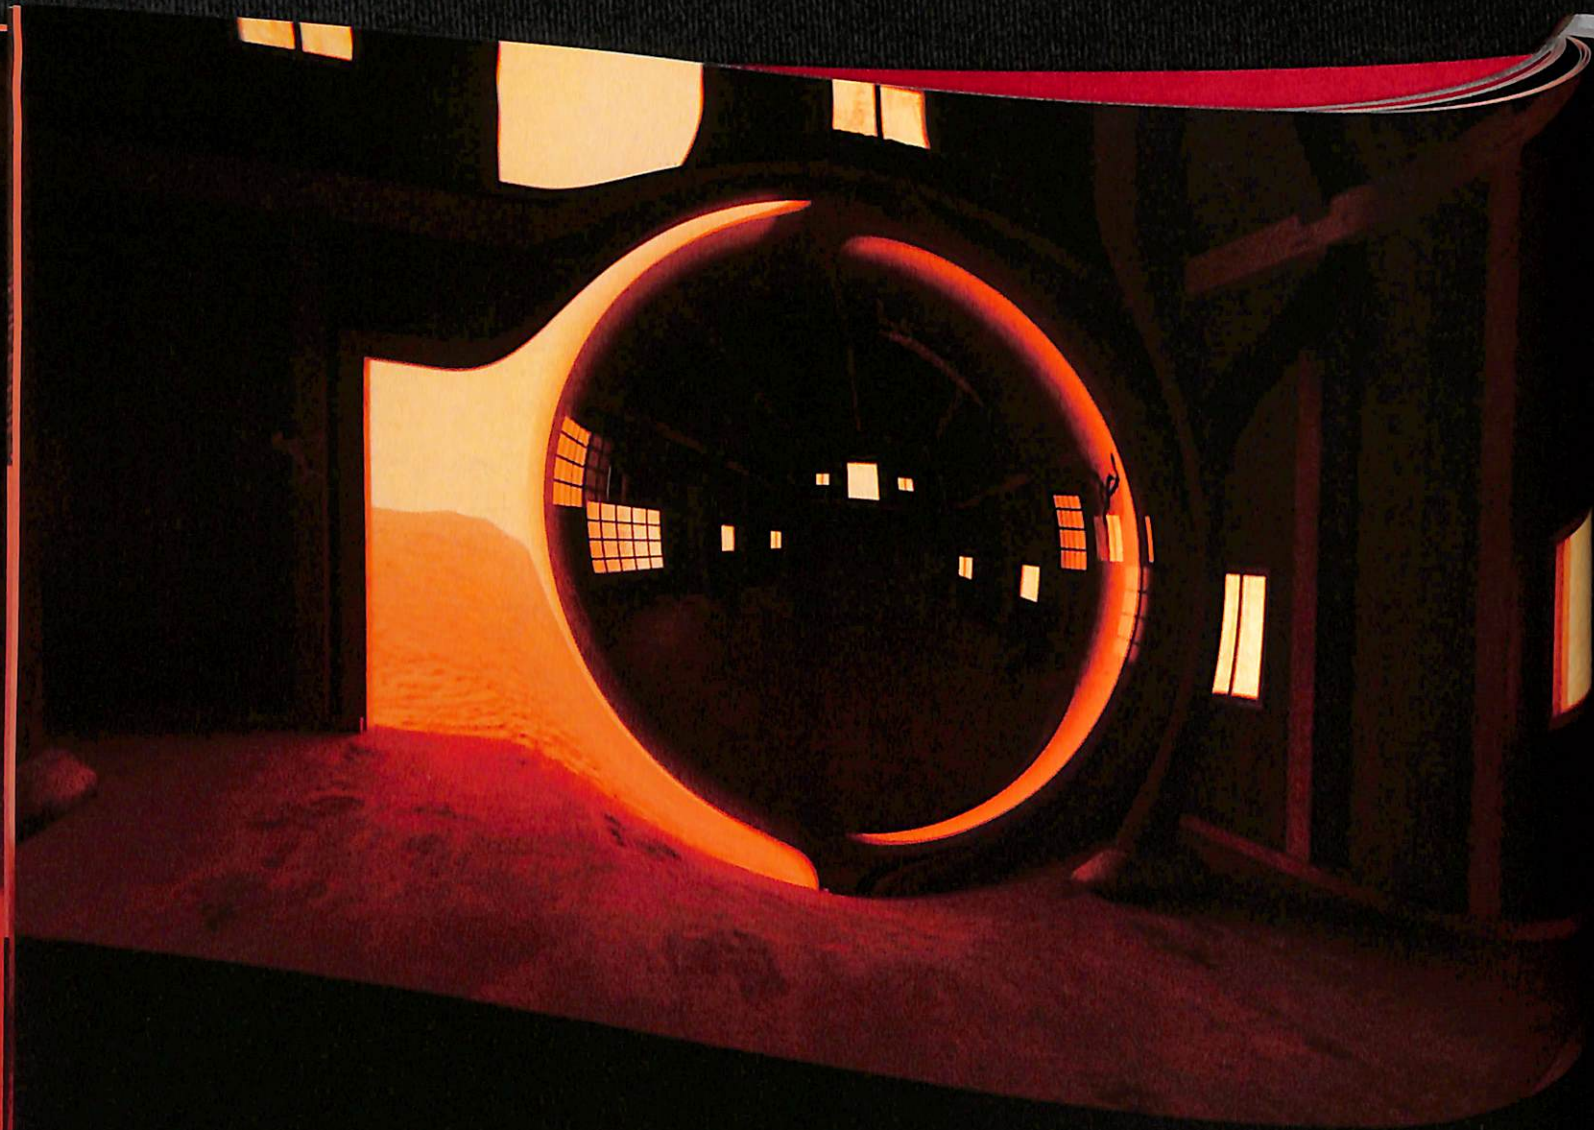

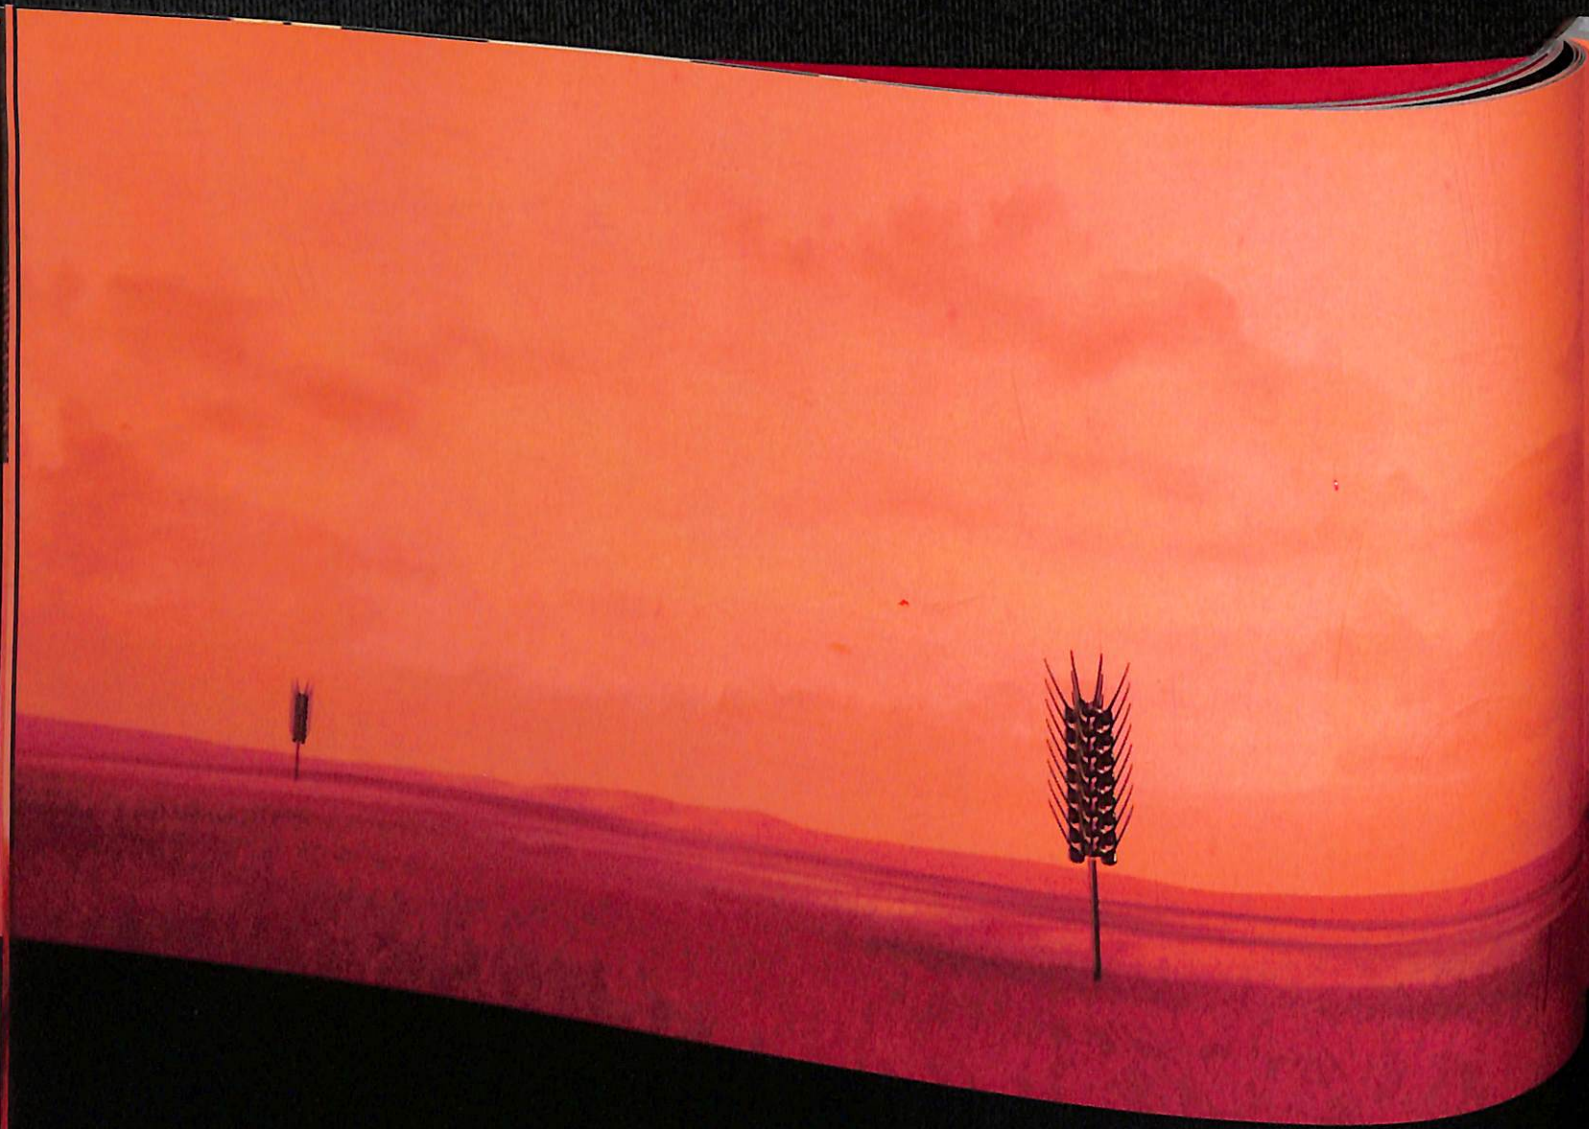

Feed me Psyman

Go now and tend to the farm

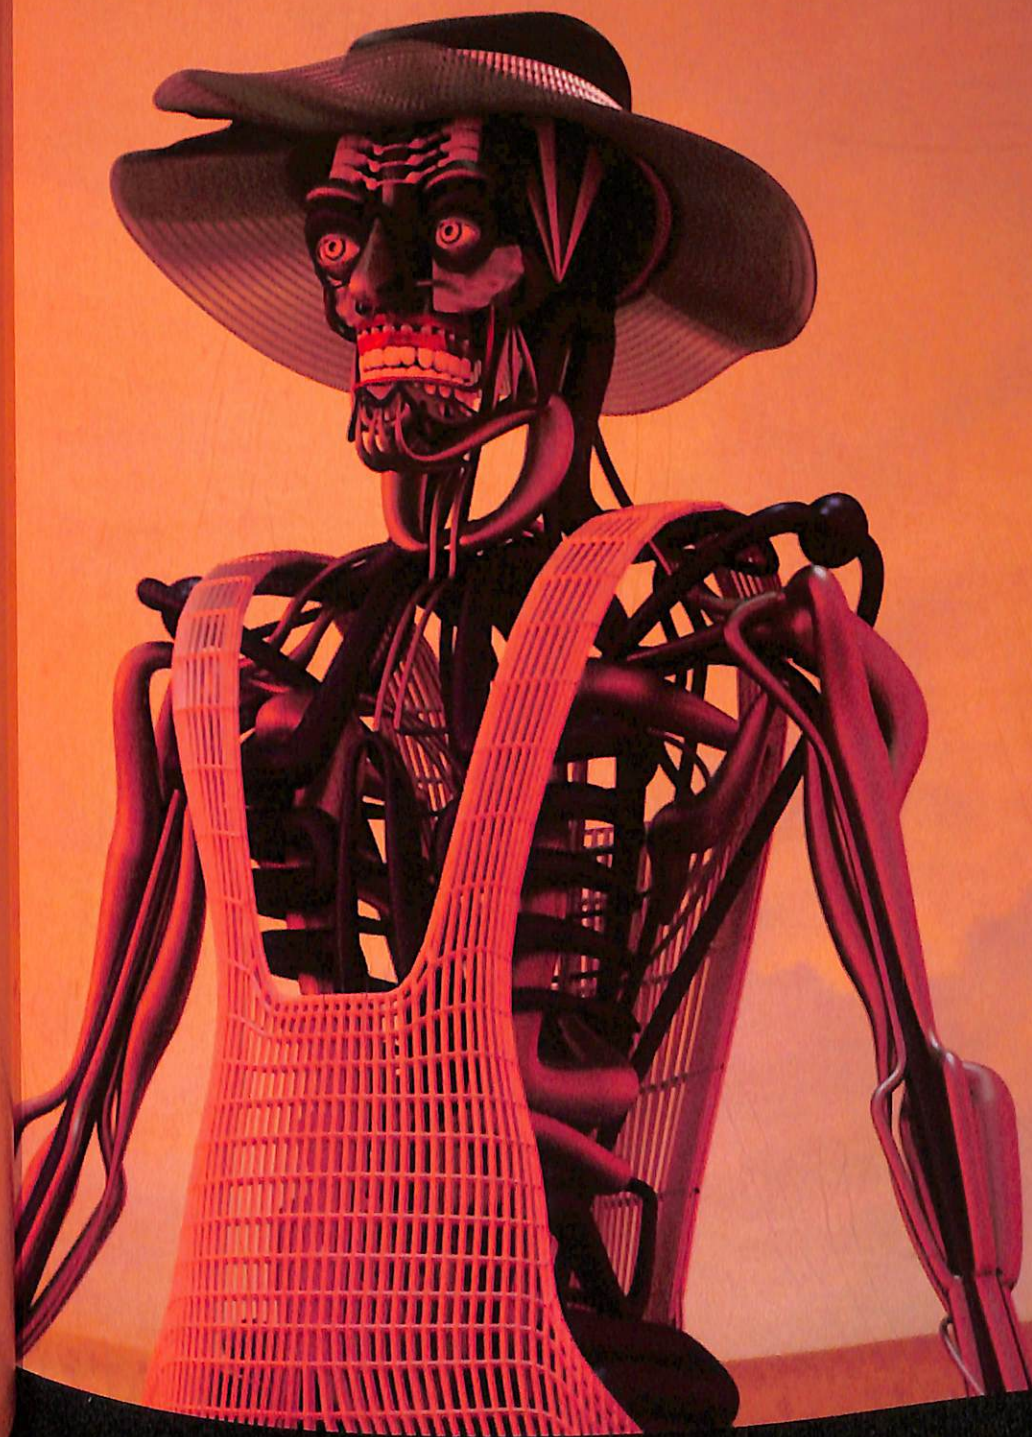

Plant the seeds

Bring in the harvest

In the face of absolute entropy

Information remains infinite

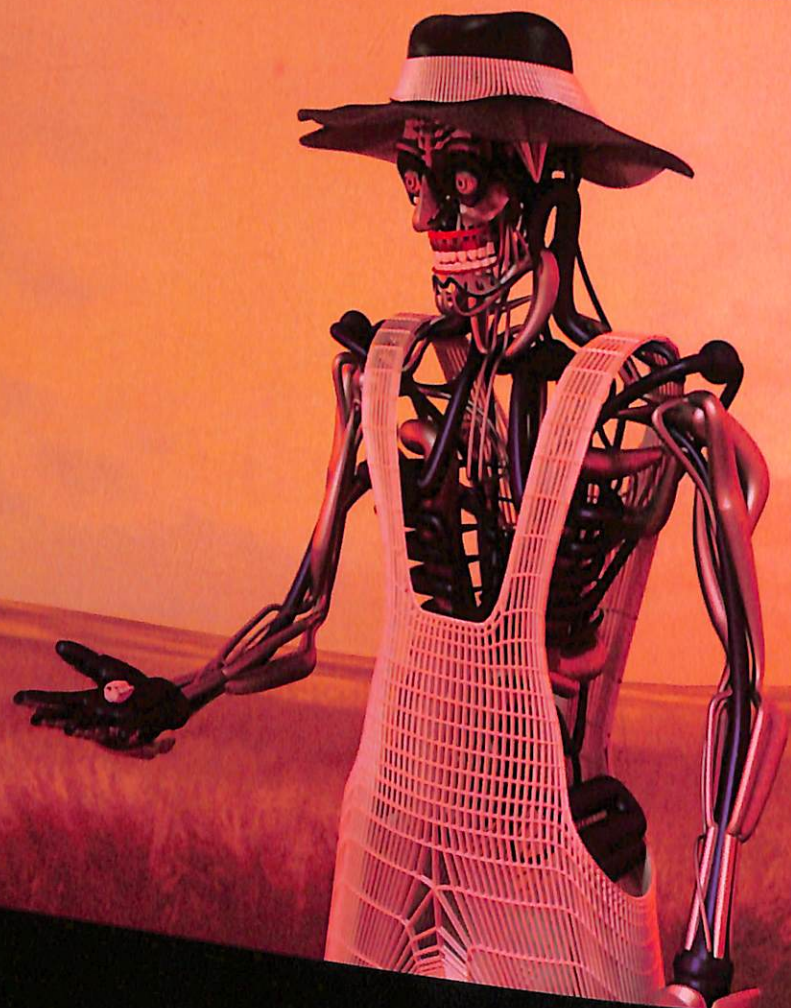

and the farm perseveres

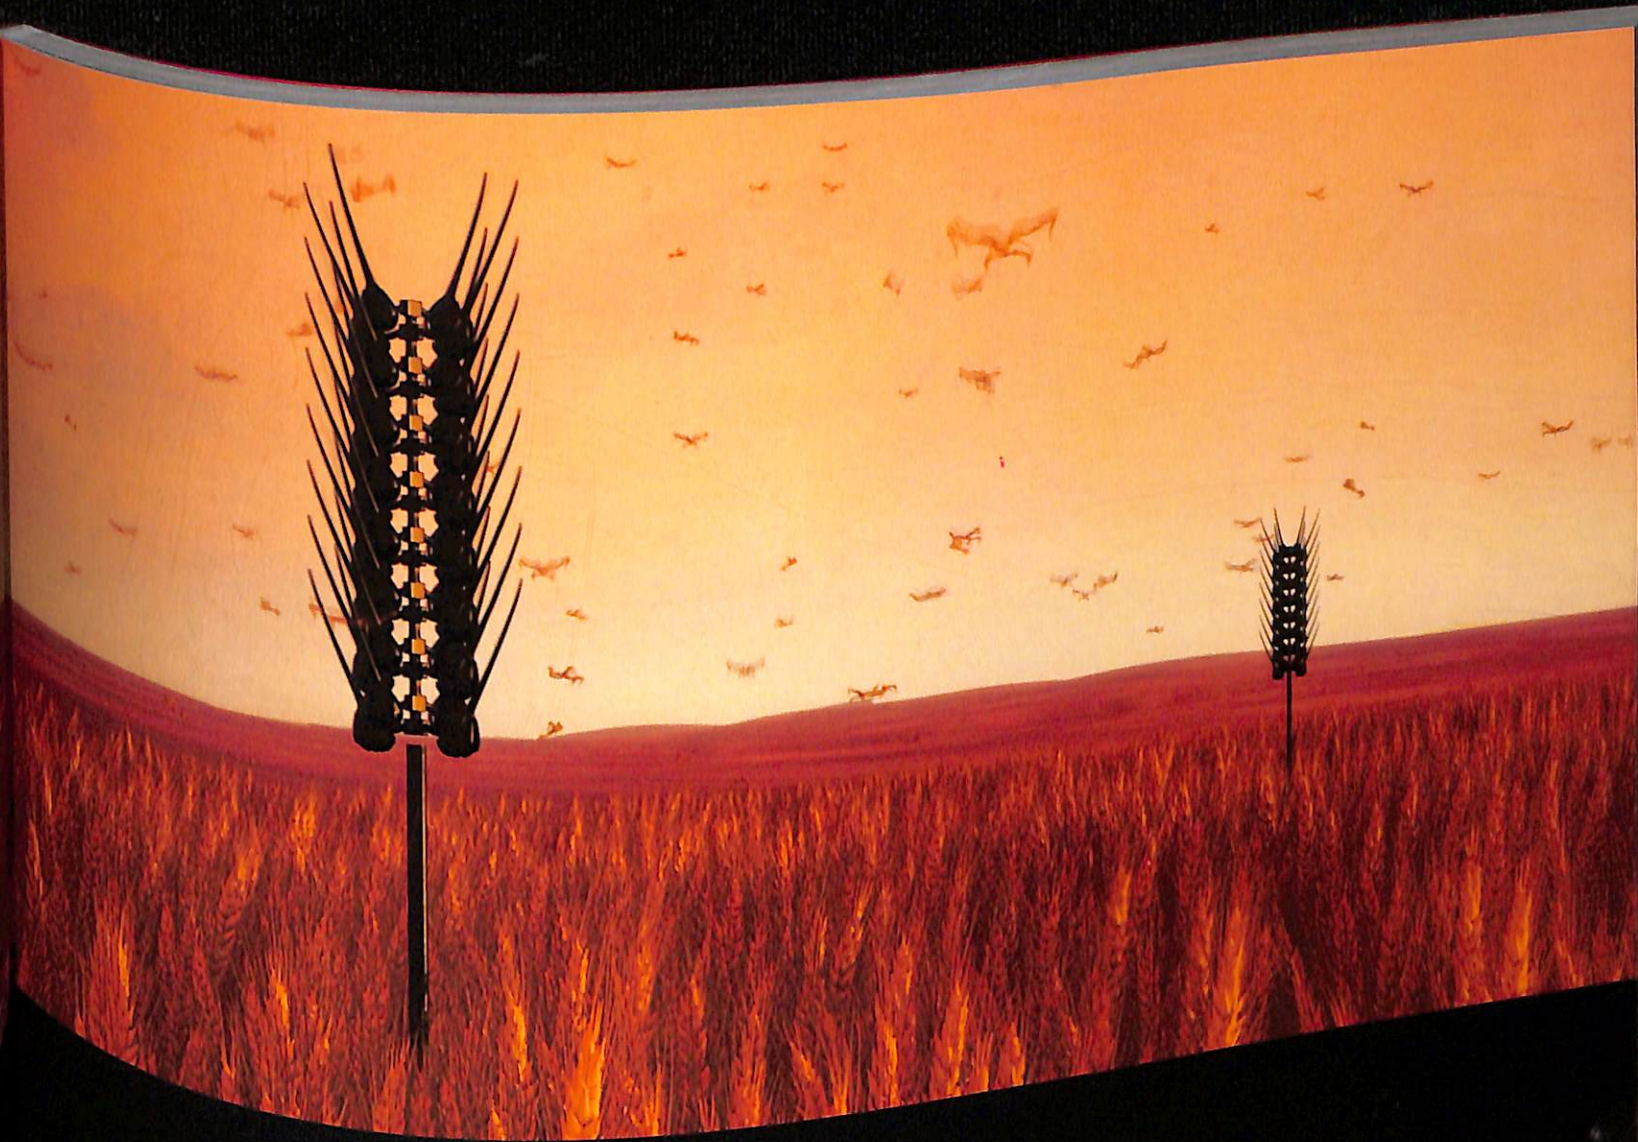

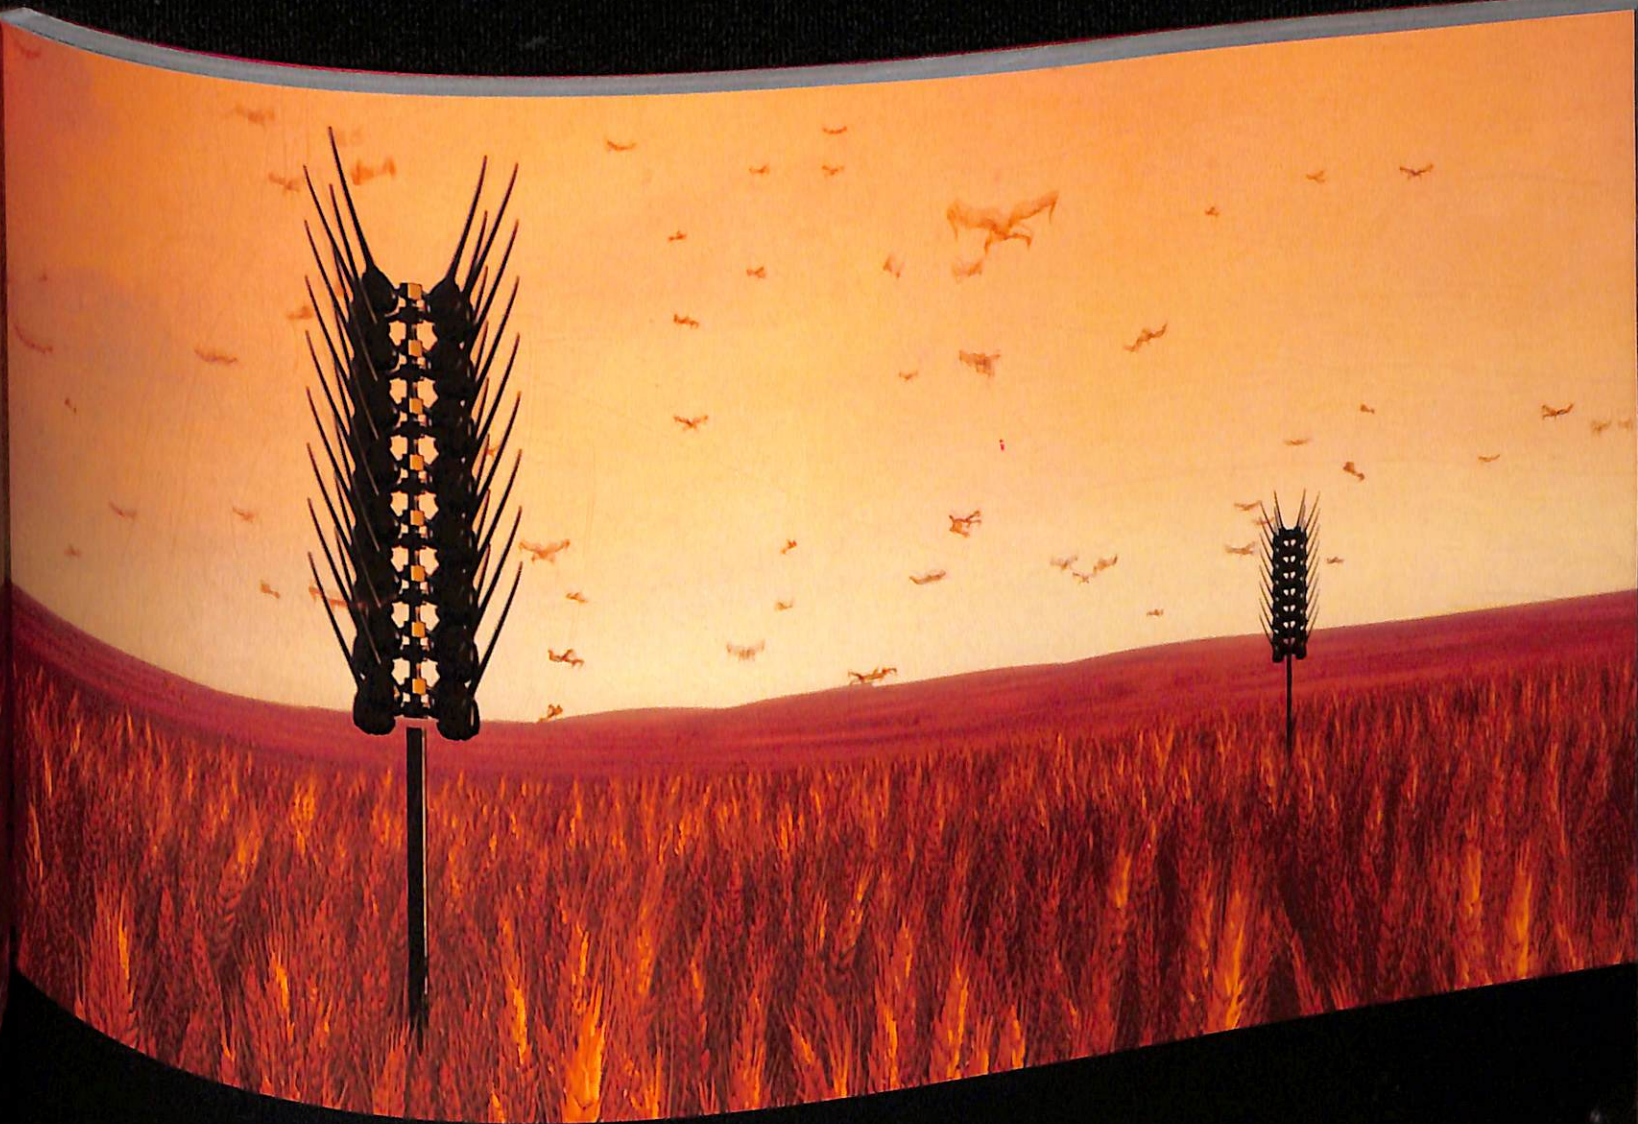

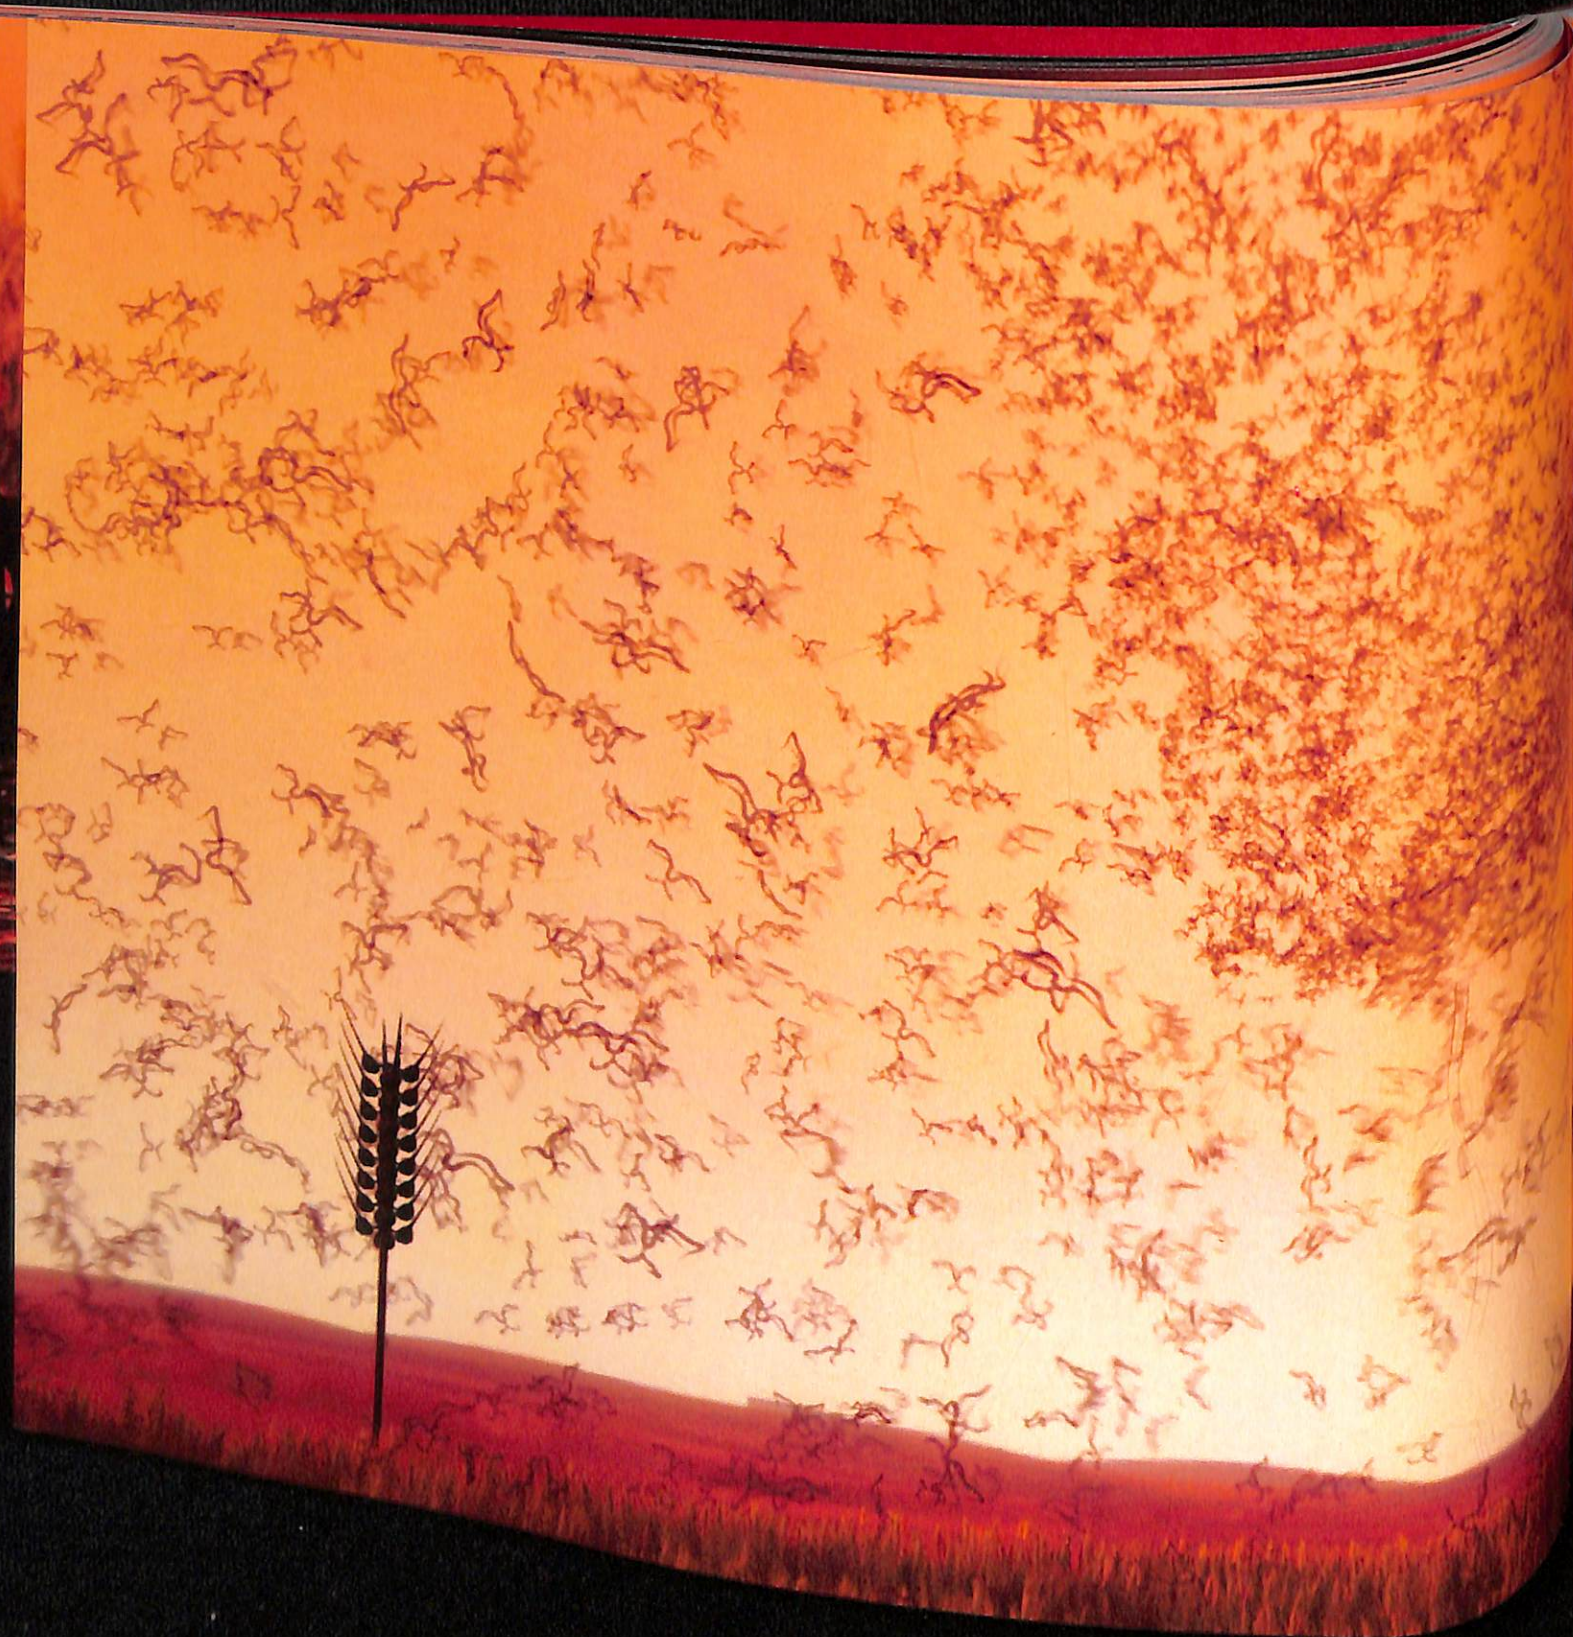

Take rest Psyman

So you may see your good work

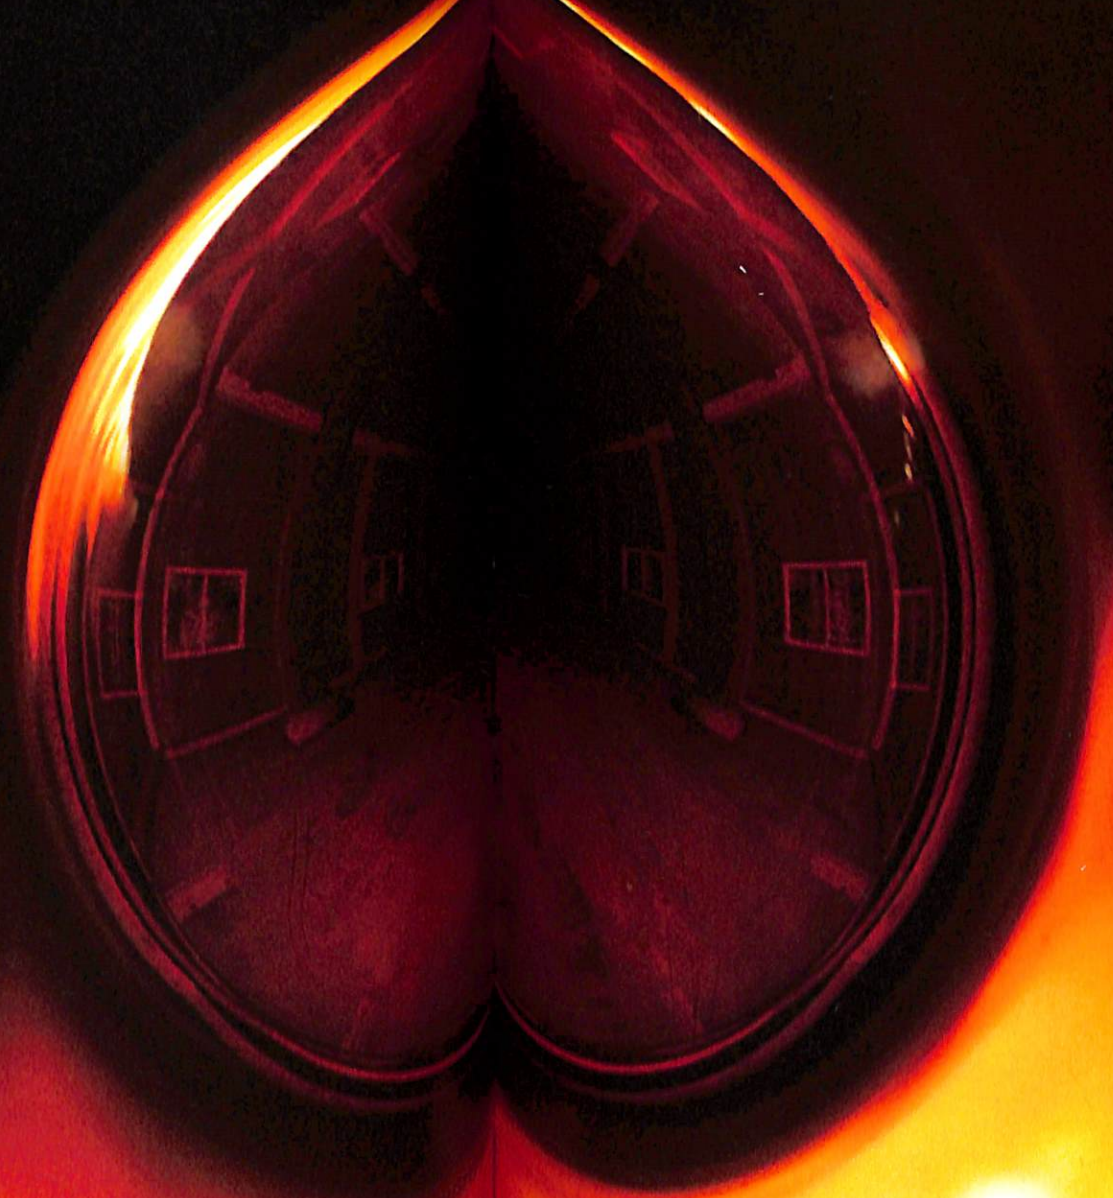

Chaos has come to the farm

and flames engulf my fields

All your hard work Psyman

Was it all in vain?

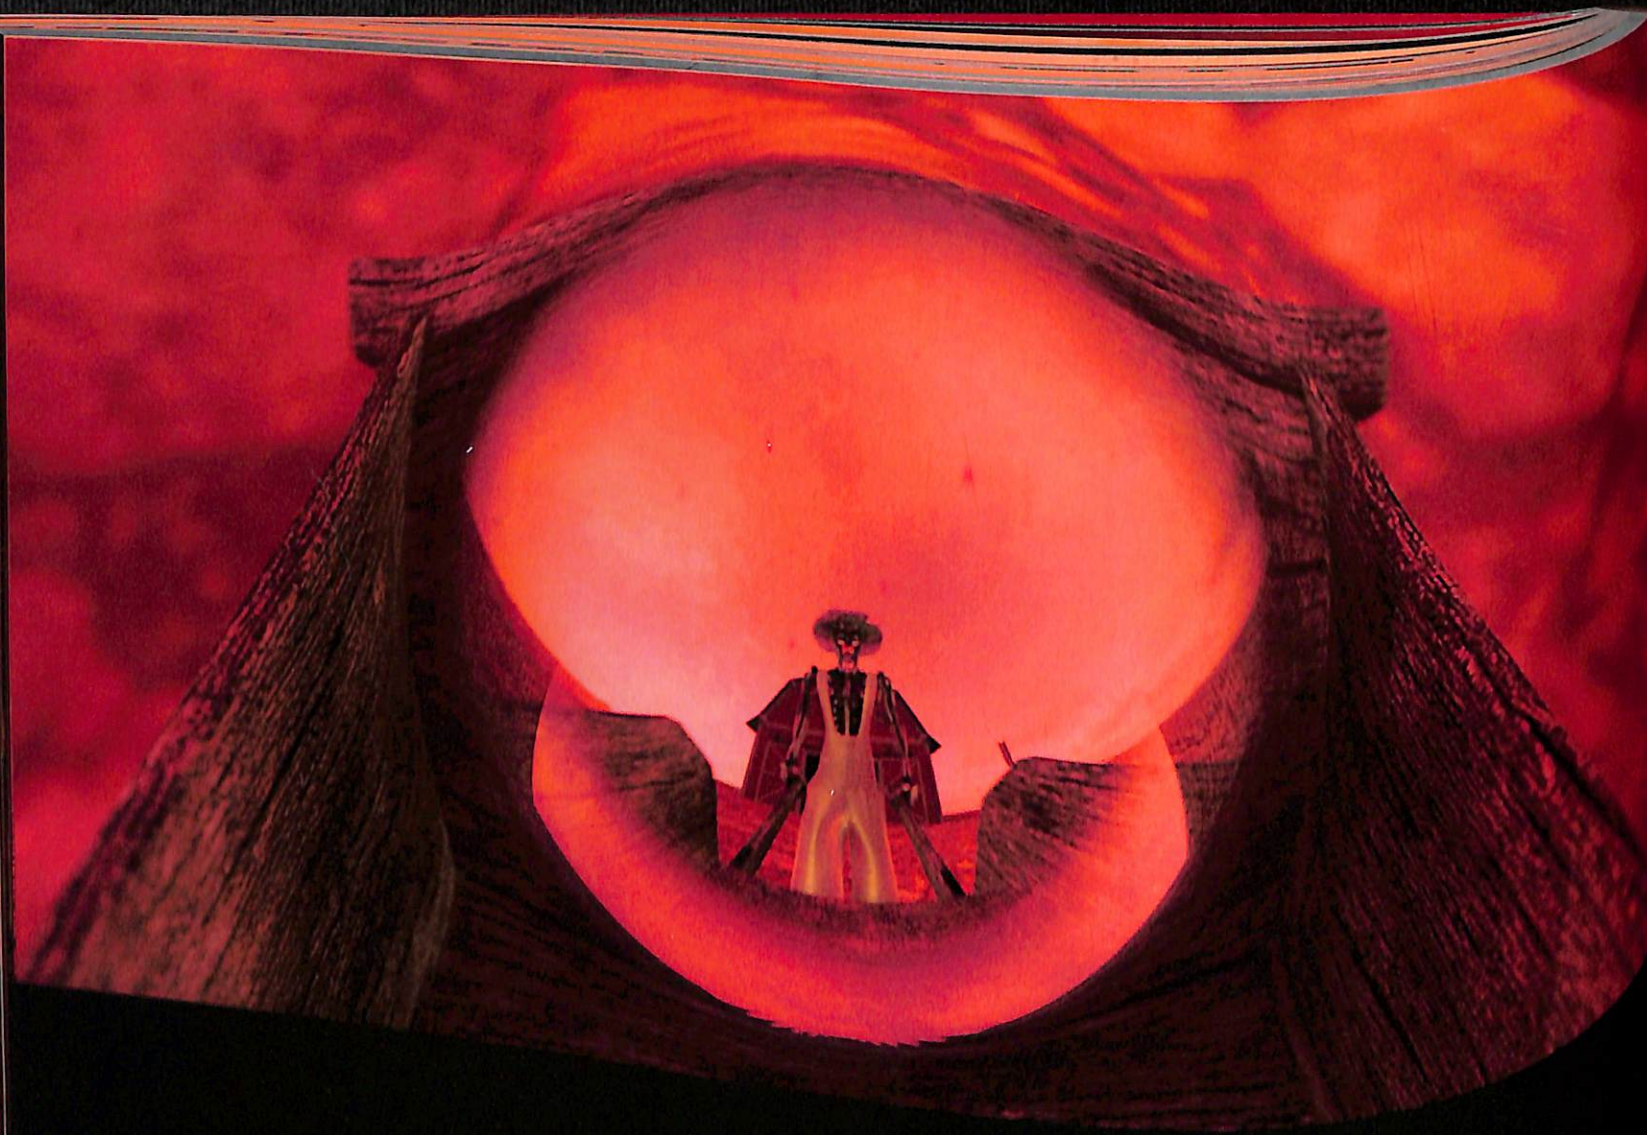

There is nothing left to eat

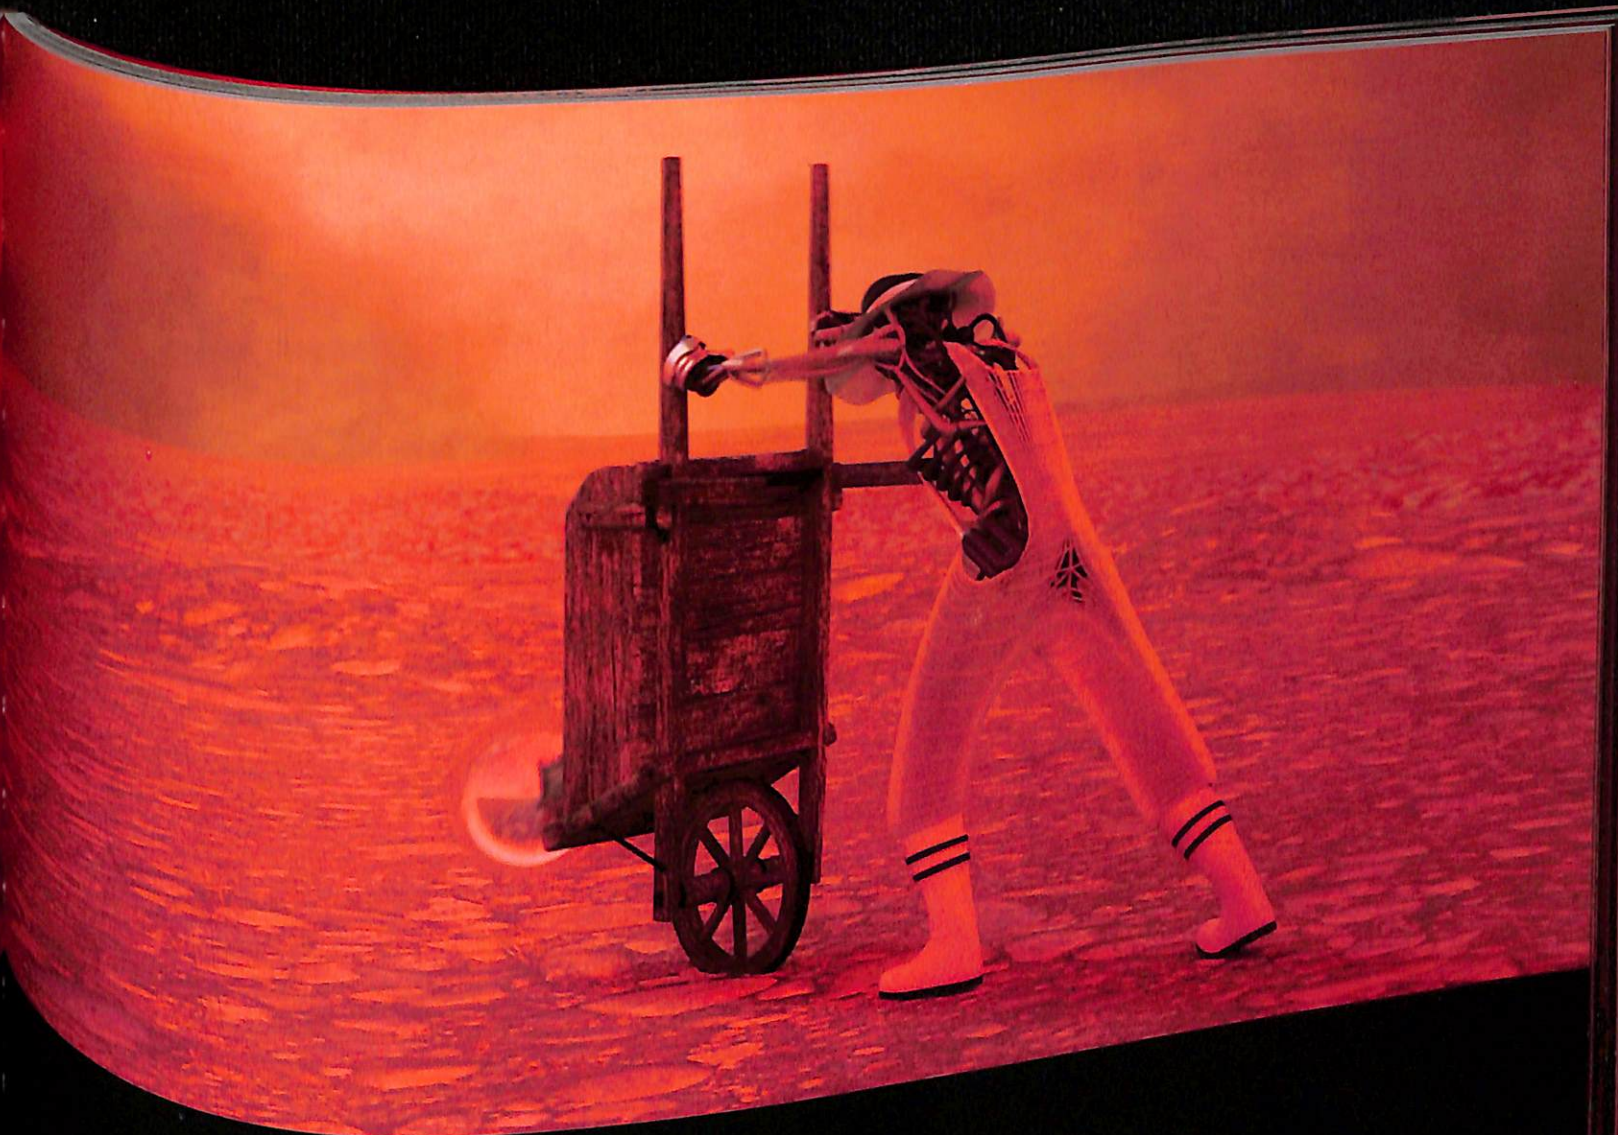

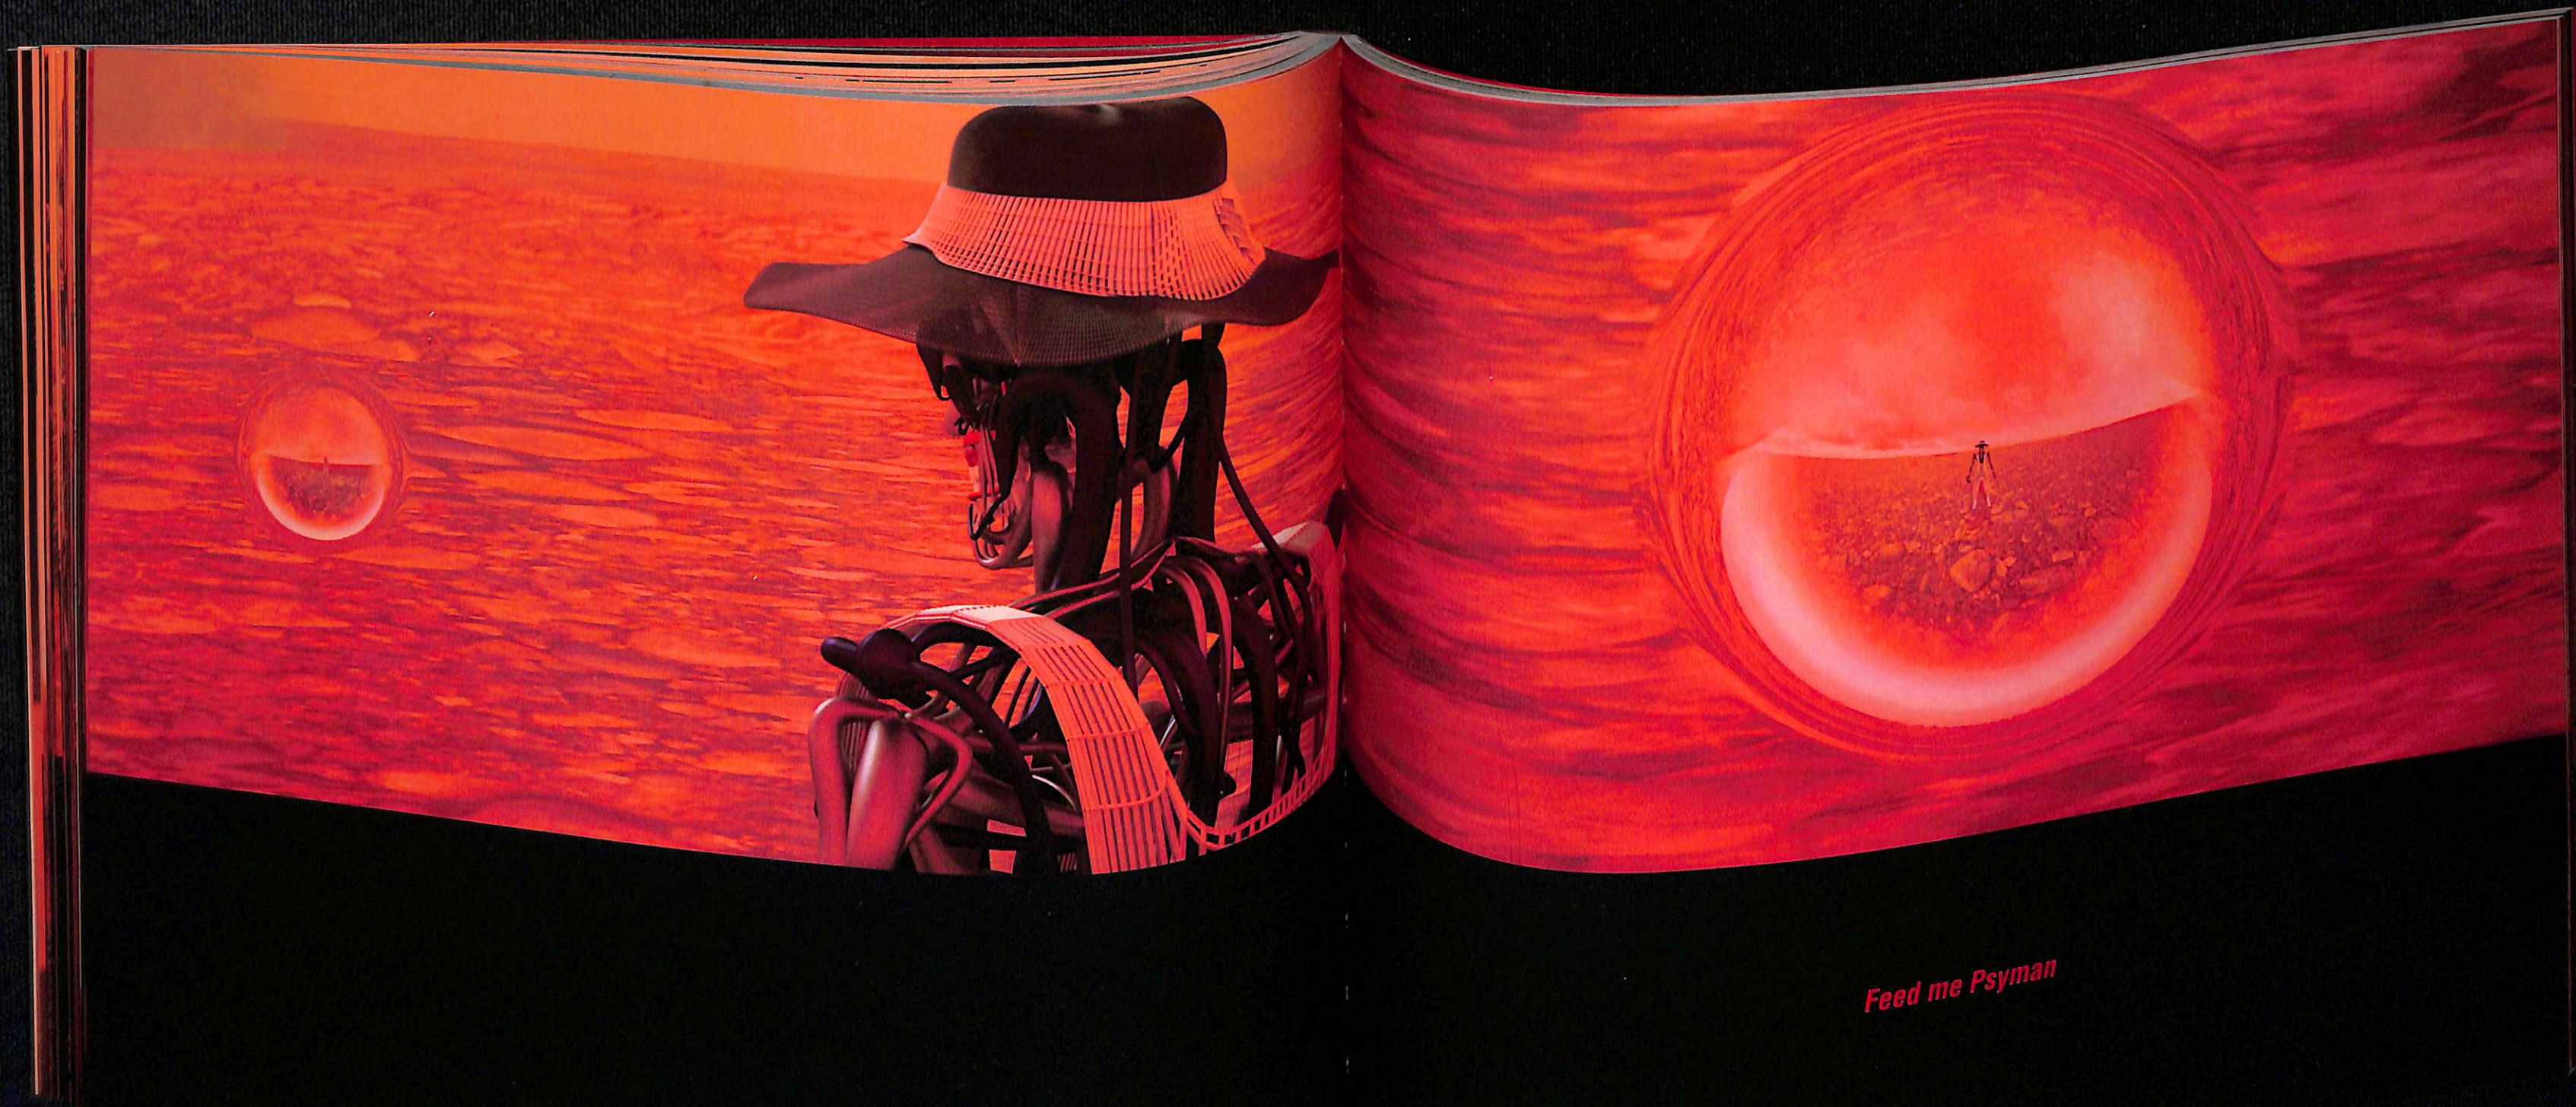

Feed me Psyman

Feed me Psyman

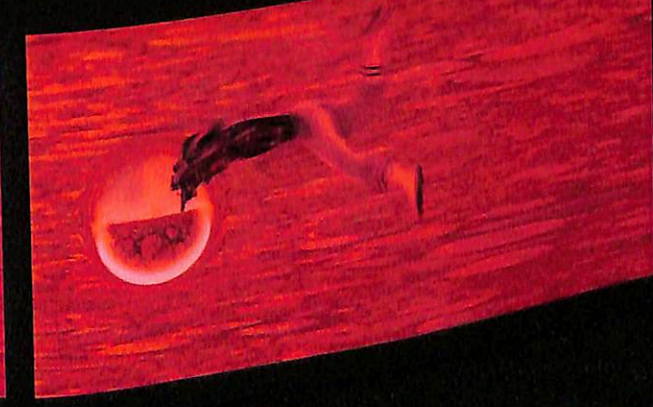

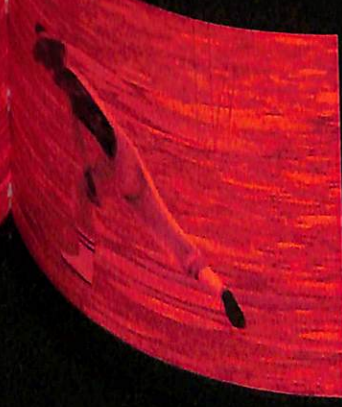

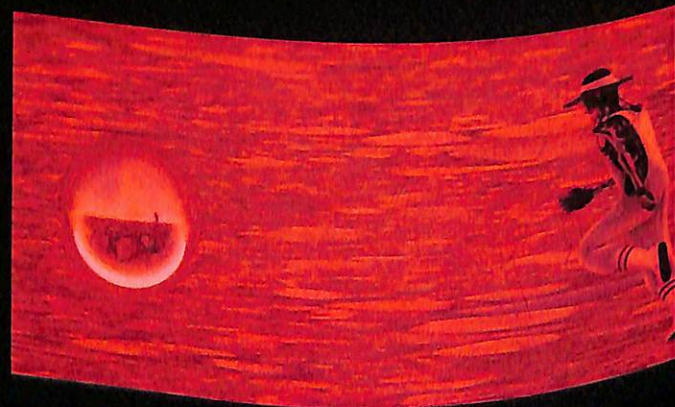

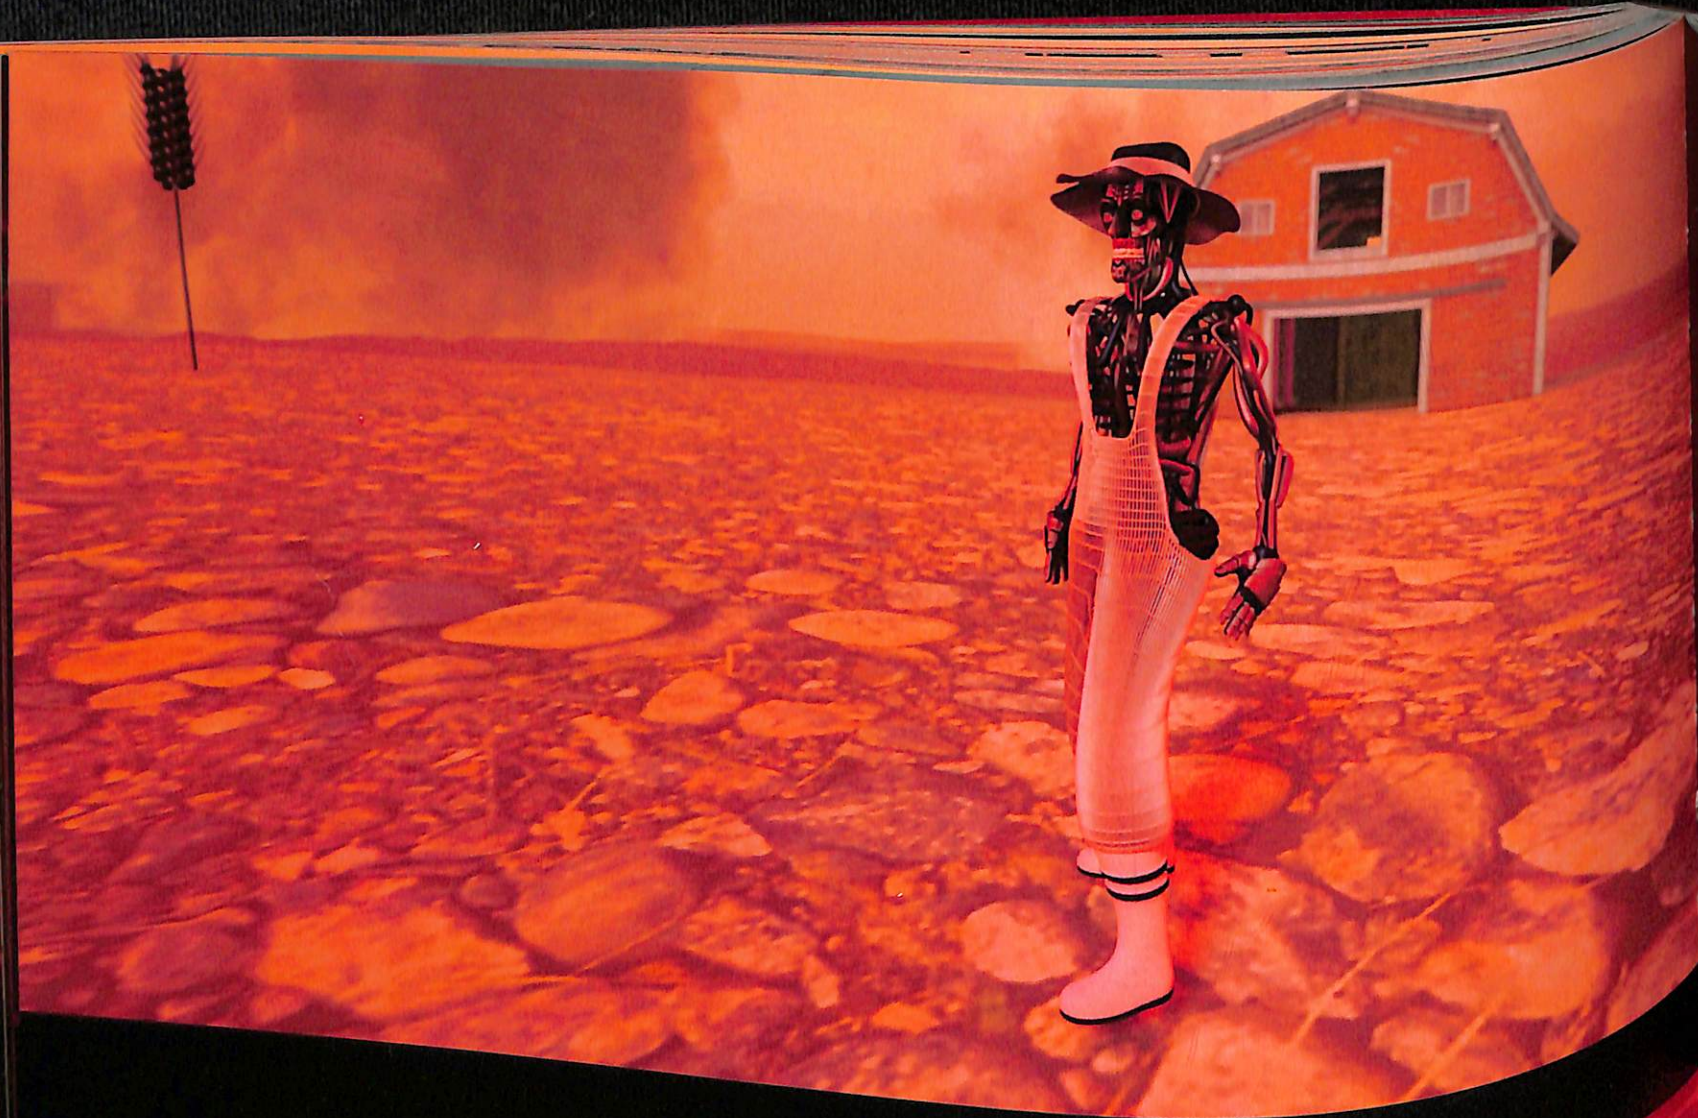

Feed me Psyman

Congratulations

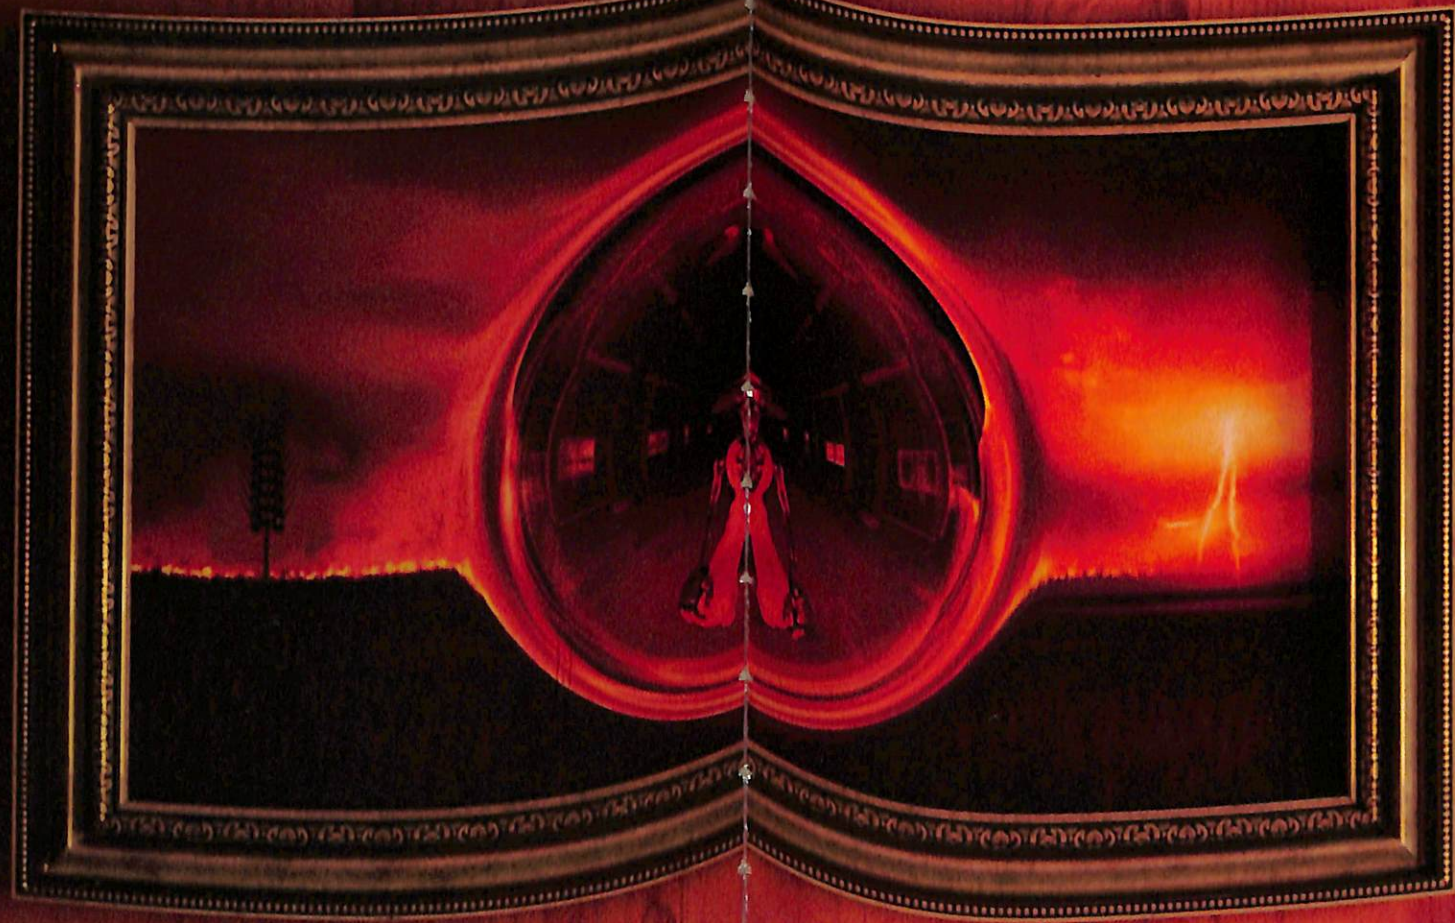

You have completed the cycle

of the Simple Psyman Stasis Program

A new sleeve will be spawned in your place

Good work Psyman
